Safety Gloves

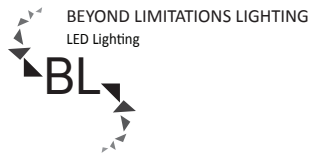

Operation

- 1- Carefully remove the fixture from packaging.
- 2- Turn power off at the fuse box before installing.
- 3- Take power supply unit and attach it to Junction Box Cover. Twist junction box cover onto threaded pipe with provided hardware.
- 4- Connect wiring following the National Electric Code.
- 5- Align holes of Junction Box Cover with holes in Junction Box and attach with screws. Tighten.
- 6- Turn Canopy in desired direction and tighten locknuts.
- 7- Attach Light Engine to canopy by putting suspension cable into cable gripper. Adjust to desired length.
- 8- Align notch of each female connector with the notch of the male connector on the canopy. Push together and twist coupling ring until connectors do not pull apart.
- 9- Push boot of female connector to the end of the cable. It should touch the coupling ring.
- 10- Installation is complete. Turn on the power at the fuse box. Turn light switch on to activate the fixture.

5 Year Limited Warranty

This product is warranted by Beyond Limitations Lighting for defects in material and workmanship for a period of three years from date of purchase. Contact Beyond Limitations Lighting for return directions. Product must be returned to the manufacturing facility for repair and/or replacement along with proof of purchase. BL-Lights will repair or replace the original light with replacement parts if needed and return the lamp back to you. In case the lamp is not repairable, a replacement lamp will be shipped to you; this may be a refurbished lamp or a new lamp. This limited warranty does not cover postage, freight, handling, insurance or delivery fees. This warranty does not cover damage, defect or failure caused by/or resulting from accident, external destruction, alteration, modifications, abuse, misuse or misapplication of the product including fluctuating power levels.
